PROFESSIONAL SUMMARY

Software Engineer with experience shipping secure web, cloud, mobile, and data-driven products for enterprise, SaaS, and local-service clients. Strong in TypeScript, React, Next.js, Node.js, AWS, testing, and technical SEO/AEO. Uses Claude Code and OpenAI Codex for AI-assisted research, implementation, testing, and code review while retaining ownership of engineering decisions and delivery.

PROFESSIONAL EXPERIENCE

Software Engineer · SparkSoft Solution, Inc. Jun 2024 – Apr 2026 · Remote

- Architected and deployed a Next.js, TypeScript, and AWS Amplify attendance platform supporting 15,000+ employees.
- Integrated biometric devices and automated export pipelines, reducing HR administrative processing time by 75%.
- Built secure Node.js/Express services for AES-encrypted QR verification, GraphQL integration, and protected S3 image delivery.

Software Engineer · SignalAEO May 2026 – Present · Remote

- Built AEO visibility monitoring and reporting across ChatGPT, Gemini, Microsoft Copilot, and Google, with quality controls that prevent misleading ranking claims.
- Developed Android device-fleet and voice-search workflows with health checks, tunnel recovery, job routing, and search-result evidence capture.
- Delivered role-scoped admin and client dashboards, readable reports and exports, Stripe billing flows, and email lifecycle tracking.

Software Engineer (Contract) · Center Court Capital May 2026 – Aug 2026 · Remote

- Built typed market-data monitoring and secondary-listing matching components for ticketing operations.
- Implemented section normalization, fuzzy matching, polling, and filter UI integration with unit and integration coverage.
- Created Playwright capture workflows and reproducible research across multiple venue archetypes.

Technical SEO & AEO Web Developer · Independent Oct 2025 – Jul 2026 · Remote

- Improved a Next.js local-service website's discoverability with canonical metadata, Open Graph data, and ChildCare JSON-LD.
- Shipped sitemap and robots routes, Google Search Console verification, Vercel Analytics, and image/content optimizations.
